GOOSE EYE ICON

The new Goose Eye Icon is a collection of 5 rugs where the design team at Kasthall has created a new modern twist on the classic shape with New York inspired colours. The new mixes of yarn colours create a slightly “blurred” version of the pattern, giving the new rugs a very contemporary look. Can be ordered in the fixed sizes of 85x240 cm, 160x240 cm, 195x300 cm or in the custom size of your choice.

The venerable design brand Kasthall was established in 1889 in Kinna, west of Sweden. Kasthall has become one of the leading rug and textile flooring

companies in the world and are represented in 30 countries with showrooms in Stockholm, Milan and New York. Despite Kasthall's global market presence, all production is carried out at the factory in Kinna where the Kasthall Design Studio also is located. That, together with design collaborations worldwide, gives us the opportunity to create unique rugs for the global interior world. Kasthall offers invaluable craftsmanship with focus on sustainability for both private and public spaces. Kasthall is a purveyor to the Royal Court of Sweden.
