KASTHALL INTRODUCES 2015 "THE HIDDEN POWER OF NEUTRALS"

This year, Kasthall explores the hidden power of neutrals. This category of subtle tones has evolved over the last few years to become an integral part of any interior design scheme – a foundation from which to add accent colours, or an expression in itself. Inspired by the ever-changing neutrals of our nature, Kasthall's designers have delved deep to create a new neutral spectrum that boasts a wide range of complex and sophisticated hues, ranging from nuances of beige, through greys and brown tones.

Kasthall has been designing and manufacturing unique woven and hand-tufted rugs since 1889. Our own factory is located since in Kinna, amid the traditional

textile area in western Sweden, where the production still occurs. Over the years, Kasthall has become one of the world leaders in the design and manufacture of carpets, and is now represented in 30 countries with a showroom in Stockholm, Milan and New York. Part of the secret is that we own our own production and thus control the entire manufacturing process. Another is our consistent focus on design and development.
